TOWN COUNCIL.

The Council met on Friday evening.

Present—Acting Mayor Betts, Councillors: Goodfellow and Brown.

The minutes of the last meeting were read and adopted.

Several communications were received and considered.

The Delegation Report signed by J. F. Betts was read by the Clerk.

A vote of thanks was moved by Bratnaber and Goodfellow to the Delegates and a short reply was made by Mr. Betts.

Several by laws were advanced a stage.

The Council adjourned to meet on Monday 2nd Aug. at 7:30 p.m.

The following is the report presented by Acting Mayor Betts:

To the Council of the Town of

Prince Albert,

GENTLEMEN,—Having completed the work undertaken by your delegates, I have now pleasure in laying before you the following short report:

Feeling the very great importance of the work with which you had entrusted us, no unnecessary time was allowed to lapse between our appointment and entering upon our duties which is demonstrated by the fact that within five days after leaving Prince Albert, we had enjoyed what we still consider to have been both a pleasant and profitable interview with the Hon. Mr. Dewdney, and with in another nine days your delegates had the honor of being well received by Sir John Macdonald, when the whole question in regards was fully presented for his consideration.

I think it hardly necessary to report in detail on the several steps your delegates deemed it advisable to take in order that the unanimous wishes of this people might be satisfied. Suffice it to say that we were received by every member of the Government with the greatest possible courtesy, every consideration

being given to our many representations, satisfying us that they were willing at any time to carefully consider all reasonable claims when proper representations are made, many delays at which we so often grumble, being caused by their several departments being over-worked.

I now have the honor to submit for your information the following official reply to our several petitions from the worthy controller of the Northwest Mounted Police, without whose very generous aid I fear the difficulties we were obliged to overcome would have been greatly increased.

Office of the Controller,
Ottawa 30th June, 1886.

GENTLEMEN,—I am directed by the Right Hon. Sir John A. Macdonald to inform you that the petitions of the Settlers in the Prince Albert District, and of the Lorne Agricultural Society, presented by you, praying that the Mounted Police Barracks may be located at Prince Albert, have received consideration, and that it has been decided to erect the proposed new buildings at, or near, Prince Albert.

I have the honor to be, etc.,

FREDK. WHITE,

Controller.

Messrs. Betts & Macdonald,
Russell House, Ottawa.

Gentlemen,—Having this proof that the all important question of Barracks had been settled to our satisfaction, we took the liberty of interesting ourselves in other matters of very great importance.

The Hon. Mr. Bowell, as Acting Postmaster General, granted us a long interview re Money Order Office and Savings Bank. While the result of this interview was entirely satisfactory to us, I am not at the present time in a position to report fully to you in this connection, but I trust that before many months both a Money Order and Savings Bank Office will have been established in our midst.

We next had the pleasure of an interview with the Hon. Mr. Carling, when your delegates, in connection with our Townsman, Mr. Chas. Mair took occasion to impress on the mind of the Hon. gentleman the many advantages which this district offered as a point for one of his experimental farms. But no immediate success attended our efforts in this direction, the Government having already decided that for the present no stations would be established off the line of railway, but the keen interest displayed by the Hon. gentleman in discussing the agricultural advantages of our district, satisfied us that the interview would eventually prove of great advantage to this people.

I have also very great pleasure in informing you that the original intention of the Government to grant only to those volunteers who were in the Duck Lake encounter has been changed, an Order in Council having been passed granting scrip to all Prince Albert volunteers. It is with sincere pleasure that I am able to announce that this change was mainly brought about through the efforts of my co-delegate, Mr. Macdonald.

Our work as your special delegates is now complete. I regret very much indeed that circumstances should have prevented Mr. Macdonald returning with me, for, to his energy and ability much of the success of your enterprise is due. My earnest hope now is that the results may prove entirely satisfactory to this people.

I have the honor to be, etc.,

J. F. BETTS.

Prince Albert, July 22nd, 1886.

ORDINATION.

On Sunday next, Aug. 1st, His Lordship the Bishop will hold an ordination in St. Mary's Church at 11 a.m., when Mr. Ronald Hilton will be ordained Deacon. Mr. Hilton has been long and favorably known here both as a student of Emmanuel College and as a Catechist and we have no doubt many of his old friends will avail themselves of the opportunity of being present at his ordination. The ordination sermon will be preached by the Rev. J. W. Time of the C. M. S., Blackfoot Mission, in the Alberta district of the Diocese of Saskatchewan.

Mrs. A. L. Sifton and child (wife and daughter of A. L. Sifton, barrister) arrived in town by steamer yesterday.

Dominica Brand of Lime Juice is one of the purest and best refined on the market. For sale at Clark's Drug Store.

The N. W. M. Police under Supt. Perry, returned from Regina on Wednesday last.

Dalmatian Insect Powder. It will kill Cockroaches, it instantly destroys Fleas, Bugs upon Plants, Flies. For sale by A. H. Clark.

Parties wanting young pigs, can procure them from Alex. Stansfield, Red Deer Hill, or by leaving their orders at THE TIMES Office.

Miss Stewart, of Montreal, arrived here by boat yesterday. This young lady is a niece of Mr. John Stewart, merchant, of our town.

On our second page to-day will be found a striking and instructive illustration of the comparative worth of the various kinds of laking powders now in the market.

The steamer North West, in charge of Commodore Sheets, arrived up the river from Grand Rapids yesterday. The vessel is bound for Edmonton, with some 220 tons of freight on board.

A challenge match between two members of the Saskatchewan Rifle Association—Messrs. Williamson and F. C. Baker took place on the range this week, at 300, 500, and 600 yards. The scores at the finish were: Baker 57 points Williamson 55 points, Mr. Baker winning by two points.

Harvest will now be in full swing. Mr. McEwen, of the Ridge, commenced cutting an excellent crop of wheat fully ripe on Tuesday, from seed supplied by Government. In several districts barley and oats are falling before the reaper, and we are glad to know the yield on the average is likely to be very fair.

On Sunday morning last, the Rev. E. K. Matheson preached a farewell sermon to his late parishioners at St. Catherine's. There was a large congregation, some of whom were unable to obtain room in the church. The service was impressive, preacher and hearers evidently parting with great regret. In the afternoon Mr. Matheson preached at Lindsay, when the audience was so large that the service had to be held in the open air.

The medal given by the President of the Saskatchewan Rifle Association, and which was won by Mr. T. E. Baker at the late meeting, came to hand by last mail. It is the handsomest design in the way of medals we have seen for some time. The medal is silver, surmounted with crossed rifle and bayonets and a gold wreath of maple leaves in the centre. On the reverse side is the inscription, "Presented by J. L. Johnson." It has to be worn twice by the same competitor.

On Monday evening last a congregational meeting was held in St. Paul's (Presbyterian) Church in accordance with a citation received from the Regina Presbytery, notifying the congregation that they had received the Rev. Mr. MacWilliam's resignation. It was moved and unanimously carried, that the congregation concur with the Presbytery in accepting Mr. MacWilliam's resignation. The meeting also decided to have a telegram sent to His Excellency inviting him to accept a suitable minister for this charge, who may be expected to arrive here some time in September.

SURVIVAL OF THE FITTEST.

For some time past the question of purity in baking powders has formed quite a feature of newspaper discussions, and eminent doctors of philosophy have given opinions as to the ingredients which compose many of the articles sold under that name. The investigations have narrowed down to the limit which awards the Royal Baking Powder the palm of purity, and several of the most distinguished scientists have testified to their conviction that no extraneous or deleterious matter enters into its composition. The Royal Baking Powder Company have achieved a world wide reputation for the success which has marked their preparation of cream of tartar for baking purposes. It is indisputably shown that they have eliminated all elements of tartrate of lime, alum or other impurities, and present to the public a healthful and chemically pure article. Such widely known chemists as Henry Morton, E. G. Love, H. A. Mott, Wm. M. Murtrie and others have verified its superiority over other manufactures, and testified, through practical experience, to its excellence. It is well for families to observe the fact that it costs more to manufacture the Royal Baking Powder than any other, but it is, as shown by chemical analysis, the one "absolutely pure" baking powder maker.

Farmers requiring assistance during haying and harvesting can secure it on applying at the Indian office.

T. E. Jackson has brought in two very handsome window show cases. They are bent glass, two stories high, and beauties.

The auction sale on Thursday of D. J. Campbell's effects was so poorly attended, that after a few head of cattle had been disposed of, Mr. Campbell declared the sale off.

On Thursday the Martin match came off at the range. Mr. R. J. Pritchard making the highest score, holds the Clarke cup for one year, and wins the Association gold badge. The score were not as good as we would wish to have seen, but there being no time for practice with the new guns, all due allowances must be made.
